ELSEVIER

Journal of Hydrology 167 (1995) 402–403

Journal of Hydrology

Contents

Research Papers

Theories of seepage into auger holes in homogeneous anisotropic soil
G. Barua and K.N. Tiwari 1

Relating hydraulic and geoelectric parameters of the Jayant aquifer, India
G.S. Yadav 23

Grid mapping of river discharge
N.W. Arnell 39

New definitions for moisture recycling and the relationship with land-use changes in the Sahel
H.H.G. Savenije 57

Particle transport through two-dimensional, saturated porous media: influence of physical structure of the medium
S.E. Silliman 79

Quantifying downflow through creek sediments using temperature time series: one-dimensional solution incorporating measured surface temperature
S.E. Silliman, J. Ramirez and R.L. McCabe 99

Simulation of the impacts of climate change on runoff and soil moisture in Australian catchments
F.H.S. Chiew, P.H. Whetton, T.A. McMahon and A.B. Pittock 121

Isotope hydrology investigations in large refuse lysimeters
P. Maloszewski, H. Moser, W. Stichler and P. Trimborn 149

Two-dimensional modelling of water table fluctuation in response to localised transient recharge
S.N. Rai and R.N. Singh 167

The causes of waterlogging in shallow soils and their drainage in southwestern Australia
J.W. Cox and D.J. McFarlane 175

Best-fit distributions of largest available flood samples
B. Önöz and M. Bayazit 195

Uncertainty measures of regional flood frequency estimators
D. Rosbjerg and H. Madsen 209

The use of strontium isotopes in determining groundwater mixing and brine fingering in a playa spring zone, Lake Tyrrell, Australia
W.B. Lyons, S.W. Tyler, H.E. Gaudette and D.T. Long 225

Simulated effects of development of regional ground-water/surface-water interactions in the northern Coastal Plain of New Jersey
A.A. Pucci Jr. and D.A. Pope 241

Geochemistry of carbon dioxide in six travertine-depositing waters of Italy
A. Pentecost 263

A distributed model for real-time flood forecasting using digital elevation models
L. Garrote and R.L. Bras 279

An integrated software environment for real-time use of a distributed hydrologic model
L. Garrote and R.L. Bras 307

Age and recharge area of thermal waters in Lądek Spa (Sudeten, Poland) deduced from environmental isotope and noble gas data
A. Zuber, S.M. Weise, K. Osenbrück, J. Grabczak and W. Ciężkowski 327

Field validation of isotropic procedures for determining sources of water used by plants in a semi-arid environment
J.P. Brunel, G.R. Walker and A.K. Kennett-Smith 351

Technical Notes

$\delta^{18}O$ and δD systematics in the surficial waters of the Gaula river catchment area Kumaun Himalaya, India
S.K. Bartarya, S.K. Bhattacharya, R. Ramesh and B.L.K. Somayajulu 369

Testing the numerical difficulty applying Richards' equation to sandy and clayey soils
A.S. El-Hames and K.S. Richards 381

Short Communication

Automated recognition of valley lines and drainage networks from grid digital elevation models: a review and a new method — Comment
L.W. Martz and J. Garbrecht 393

Book Reviews

Ecology and Management of Invasive Riverside Plants, by L.C. Waal, L.E. Child, P.M. Wade and J.H. Brock (Editors) — W.L. Graf 397

Atlas of Satellite Observations Related to Global Change, by R.J. Gurney, J.L. Foster and C.L. Parkinson — J.S.G. McCulloch 398

Time Series Modelling of Water Resources and Environmental Systems, by K.W. Hipel and A.I. McLeod — R.H. McCuen 399

The Rhine Under the Influence of Man — River Engineering Works, Water Management, by Commission for the Hydrology of the Rhine Basin — J.S.G. McCulloch 400
